EWEN Industry meeting Monday 1st of July 16.00 to 17.30

EWEN invites all interested to a pre-conference industry meeting Monday the 1st of July at 16.00 to 17.30 in Gamle Logen. It is in the same building as the welcome reception at 18.00.

The pre-conference industry meeting will be facilitated by Pat Harris and address some important questions regarding research and industry collaboration. Whilst we are all part of the wider equine industry for the purpose of this meeting please identify yourself either as 'research' or 'industry' and come prepared with your answer to each of the relevant questions below.

For those identifying for this meeting as 'industry':

- 1) Which one piece of research would they really like the nutrition researchers to undertake on behalf of the industry?
- 2) What is the one thing they would like the research community to stop doing/saying?
- 3) One practical thing they think they personally or their company could do to help improve research into equine nutrition.

For those identifying for this meeting as 'Research':

- 1) What is the one piece of research they would like the 'industry' to help fund/support
- 2) What is the one thing they would like the 'industry' community to stop doing/saying
- 3) What is the one practical thing they would want 'industry' to do to help improve research into equine nutrition [other than direct funding]

We look forward to seeing as many of you as possible attend this pre-meeting mini workshop.

It is free to attend, just signup here:
